Manley,

I wanted to say every single one of my team members said to me, "Thank you for having Manley." We really learned and took what you said to heart.

Your message was exactly as I had seen in my head. Everything I was thinking was what you were sharing- hitting a mental checklist I had made in my head. You are a very spectacular speaker-the best I have ever seen or heard! I have seen many motivational speakers, been to several inspiring seminars, attending multiple business meetings and none have compared to the weekend you shared with my team. Some team members and I attended Tony Robbins event *Unleash the Power Within* and the Tony Robbins *Business Mastery Seminar* and that was great, but you are SO much better.

You teach by reaching out and opening yourself up to others. You draw people to your logical conclusions and explain in ways for everyone to understand and learn from. The world needs more from you.

In my opinion, you are the best I have ever seen or witnessed. We will not delay in implementing what we learned. The information you taught us will be put into action immediately.

Three of our team members, Lynette, James, and Julia stayed up until 3:00 am creating the next summit for the Ronaldo Designer Jewelry sales team.

I am so grateful for the opportunity of sharing a few days studying under you. You truly have changed my life and my company forever. For this, I am continuously grateful.

Warmest Personal Regards,
Ronaldo Needham
President and CEO of Ronaldo Designer Jewelry
